

MPL Appoints EX IFA Tony Catt as Operations Manager

LONDON, 01.06.2010 - Managing Partners Limited (MPL), the boutique fund manager, has today announced the appointment of Tony Catt as Operations Manager, supporting the company's ongoing growth plans. He will be based in MPL's office in Crawley and will report to Jeremy Leach, the Managing Director.

Tony has over 30 years experience in financial services, advising both individuals and financial institutions on their investment needs. Prior to joining MPL, Tony worked at Hanson Wealth Management, a provider of independent financial advice to all areas of personal and corporate financial planning, as a general IFA. At MPL, Tony will be responsible for managing and assisting the business development managers in their role and implementing best practice procedures throughout MPL's products.

Jeremy Leach, Managing Director, MPL said: "Tony has a wealth of experience in financial advisory services and he will be a major asset in helping us continue to deliver our funds to market, offering investors an alternative to the mainstream asset classes that have let investors down over the last couple of years."

Tony Catt commented: "I very much welcome the opportunity to take on this new role at MPL. This is an exciting time in the company's history, as new regions and market sectors are presenting us with new and varied opportunities. I am looking forward to applying my experience and proven performance to continue to deliver investors with the opportunity to invest in MPL's exciting investment products."

MPL manages a range of Regulated Mutual funds and collective investment programmes. Its Traded Policies Fund ("TLPs") is a specialist investment fund that allows investors to participate in the excellent returns achievable from investing in a portfolio of Traded Life Policies, with its GBP Growth share class in the fund returning 32.13% net of all charges since being launched in March 2007. Its British Property Opportunities Fund is a specialist property fund established in January 2008 to allow investors to participate in the residential property market without the day to day issues of managing a diverse property portfolio, and has returned 15.72% net of all charges since launch.
